

CFISD Web Game Development

Scope and Sequence

Course Description:

In this course, students will develop a comprehensive skill set in game design. Beginning with copyright basics and asset design in Photoshop, they will progress to exploring the history of the gaming industry and setting up WordPress websites. Shifting the focus, the class will delve into hands-on projects, including crafting classic games like 2D platformers and a 3D FPS game. Additionally, students will gain insights into the job market and augmented reality. This course effectively prepares students for exciting opportunities within the game design industry. (1 credits)

- Grades 11-12
- Required prerequisite: Web Design
- Satisfies advanced course requirement for Business & Industry endorsement.
- Lab supplies or fee may be required.

[TEKS](#)

Cluster: Arts, A/V Technology and Communication & Information Technology

Endorsement: Business & Industry

- Meets advanced course requirement (Y/N): Y
- Meets foundation requirement for math, science, fine arts, English, LOTE (Y/N-area): N

Industry Certification/Credentials: None
