

## CFISD Introduction to Culinary Arts

### Scope and Sequence

**Course Description:** This course will emphasize the principles of planning, organizing, staffing, directing, and controlling the management of a variety of food service operations. It also provides insight into the operation of a well-run restaurant covering a wide array of topics such as food storage, production, and presentation, various levels of industry management, and general hospitality skills. This is an entry level course for students interested in pursuing a career in the food service industry. *(This course is offered as a classroom and laboratory-based course.)*
