

CFISD Practicum in Health Science Scope and Sequence

Course Description:

While earlier courses in health science provide students with an overview of the healthcare industry, this course allows students to select and pursue a specialization. Students will have the opportunity to gain knowledge and develop advanced clinical skills needed for a specific certification or licensure in an allied health career in the classroom and the workplace, such as Pharmacy Technician, Certified Nursing Aide (CNA), Emergency Medical Technician (EMT), or Registered Dental Assistant (RDA). Students are required to work 5 hours for an unpaid position or 10 hours for a paid position per week at an approved training site. The student must be employed at that site within two (2) weeks after enrollment in the course. Because training requirements vary by specialization, a declaration of interest process is required to determine the most appropriate method(s) of instruction. These may include classes on a college campus, pre-employment labs in the classroom, clinical internships or employment, or a combination.

- Grade 12
- Required Prerequisite: Principles of Health Science and one health science advanced related course (Health Science Theory/Clinicals, Anatomy and Physiology K, or Pathophysiology K) and admission to LoneStar College for EMT and/or CNA.
- A Declaration of Interest is required for all areas (CNA, EMT, Pharmacy Technician, RDA, and Work Study).
- CNA, EMT, RDA and Pharmacy Tech Certifications satisfy the requirement to earn a performance acknowledgment.
- Lab supplies and/or fees are required based on chosen area of study.

Students participating in CNA or EMT classes are enrolled for one semester however can take in conjunction with work study.

TEKS - Health Science

Programs of Study: Healthcare Diagnostics, Healthcare Therapeutic, Nursing Science and Health Informatics.

Endorsement: Public Services

- Meets advanced course requirement (Y/N): Y
- Meets foundation requirement for Math, Science, Fine Arts, English, LOTE (Y/N-area): N

Industry Certification/Credentials: Emergency Medical Technician, Certified Nurse Aide, Pharmacy Technician, and Registered Dental Assistant follow established proprietary and/or state approved preparation programs including skill practice and job shadowing/training for state certification exam.
