

**Title:** Shinoda Foundation Scholarship

**Deadline:** April 25, 2024

**Award Amount:** \$7,000

Each year, scholarships are awarded by the Foundation to undergraduate students specializing in some phase of FLORICULTURE. The object of the awards is to encourage good students to enter the domestic floriculture field; therefore, applicants should intend to work in some phase of COMMERCIAL FLORICULTURE in the United States after graduation.

**Website/Application:** [https://studentscholarships.org/scholarship/12981/shinoda-foundation-scholarship#google\\_vignette](https://studentscholarships.org/scholarship/12981/shinoda-foundation-scholarship#google_vignette)

**Eligibility/Requirements:**

The definition of Floriculture is: The cultivation of flowers, especially to be cut and sold, including flowering plants and foliage plants, cut flowers, greens, bedding plants (annual and perennial) and hanging baskets.

- To be eligible, applicants must attend their present institution or another providing accredited floriculture course work during the next academic school year. Since specialization might not occur until later in four-year schools, preferences will be given to upper division applicants.
