

CFISD Photojournalism

Scope and Sequence 2023-2024

Course Description: Photojournalism is a one-semester course that introduces students to the world of photography and journalism. The law, ethics, and history of photography complement the major units of study: operation and care of the digital camera, taking pictures, teamwork, and management skills. In addition, students will have opportunities to use state-of-the-art computer-aided publishing tools and other hands-on production tools. Students must have their own digital camera, and a fee will be charged for necessary photographic supplies. This course requires work outside of class to complete assignments.

Texas Essential Knowledge and Skills: Photojournalism TEKS

Instructional Units	Days**	
First Semester	74	End Date
1st Grading Period (37 Days)	08/28/2023	10/20/2023

*Unit 4 continues <ul style="list-style-type: none"> • Students participate in ongoing, hands-on projects to develop field-based photographic journalism skills, including: visual storytelling, interviewing, technical quality, composition principles, editing, layout, caption writing, evaluation & critique 	51	5/30

* Includes time for semester review & final exams.

** The length of each unit is an approximate number of days dependent upon the materials used and complexity of assignments. Units may be combined. The purpose of this flexibility is to allow teachers the opportunity to plan for the needs of their students and to accommodate re-teaching or review when necessary. If pre-assessment indicates student mastery could be achieved in a fewer number of days, the additional time could be used for extension or carried into the next unit.
